Strong communication and problem-solving skills.

## PROJECTS

### 1. 24 Rides

- Designed and implemented the customer app UI using React Native, delivering an intuitive ridesharing experience.
- Worked on the driver app UI and functionality, integrating Redux for efficient state management and Axios for seamless API communication

### 2. Food App

- Worked on the user interface (UI) design and development to ensure a seamless and engaging user experience.
- Implemented user login functionality, integrating Redux for efficient state management.
- Used Axios for API calls to connect the frontend with the backend after completing the UI implementation.

## ACHIEVEMENTS

Recognized for creating reusable component libraries, reducing development time across projects.

Successfully implemented animations and UI effects that enhanced user engagement and retention.

## CERTIFICATES

- Advanced Distributed Systems - NPTEL

12 weeks course

- Advanced Diploma in Java Programming

(11/2022 - 03/2023)

## WORK EXPERIENCE

### Sotware Trainee

#### Velo Zion Technology Pvt. Ltd

09/2023 - 11/2024

Bangalore, India

-Responsibilities

- Designed and implemented responsive web applications using **HTML, CSS, Bootstrap, JavaScript, and React.js**.
- Developed and maintained backend components with **PHP and MySQL**, aligning with MVC architecture.
- Developed internal projects such as a **Tours and Travels app** and a **Food Delivery app**, focusing on seamless API integration and offline storage.
- Collaborated in the development of mobile applications using **React Native**, ensuring optimal user experiences.
- Delivered training on **frontend development** techniques and tools to interns during onboarding sessions.
